SATURDAY MORN'G, JUNE 14, 1851.

37 The Committee of Arrangements for the celebration of the approaching Provide of Julyhave had several meetings to deliberate upon a plan for the observance of that day in this town, and they have concluded that none will be more acceptable to the community, or more in accordance with popular contiment, at this time, than a Public School Cele bration. They are fully aware of the strong and continually growing interest which is manifested by our citizen in the welfare and increasing prosperity of our Public Schools; and, influenced by this feeling, they think that a celebration of our national birth day, in which the acholars of our Public Schools of which we are all justly proud shall he mainly indentified, will operate as strong incentive to Teachers, Scholars and Parents, to renew their efforts in behalf of these Schools, and materially aid in elevating them to that high standand which will gratify the hopes of the most ardent Patriot. It cannot be denied that in a Government like ours, the hopes of its perpetuity, and the eafety of its glorious institutions, depend anninly upon the great mass of the people; and just in proportion as the rising gencration are educated and propared to participate in all the active and responsible duties of life, will a guarantee be afforded that the American Ropublic will progress in strength and glory, until it shall become the pride of the world and the universal home of the free, the hrave and the good.

Actuated by these motives, the Committee have decided to depart from the usual observance of the day, on their made of celebration. . They dintend to form a procession composed of the scholars in the Public Schools accompanied by their Teachers and the School Commit. tee. They will march through the principal streets, accompanied by the Newport Brass Band, to one of the churches, where appropriate exercises will be performed, and the children be addressed by several gentlemen who are to be invited for that purpose. After this the procession will move to Bellevue Hall, where a colation will be served to the scholars. In the evening the Band will play in the Park, on the Parade.

The town appropriated \$150 for this that by the most economical expanditure of the money which they can possibly make, they will require about one hundred dollars more than what the Town Las given ; and they appeal to their fel--low citizens, and especially those who are most intimately interested in the welfare of the Public Schools, 'o aid them in obtaining this amount, as, without it, they will be unable to carry out the plans which they have arranged. They feel that, in making this appeal to the friends of Education, they will certainly be anabled to complete their arrangements, and thus have a seelchration by which much good swill be accomplished to the community. Those who are disposed to contribute soward this object, can hand whatever they wish to give to either of the members of the Committee,--viz:-

137The Rev. Dr. Sharp will preach at the Rev. Dr. Choules' Church tomor row, at the usual hours.

By reference to another column it will be seen that the steamer Perrys Capt. Woolsey, will commense her new arrangement on Monday next. She leaves here at 5 in the morning, and remens at 11, A. M.; Jeaves-her again a 15 migrates before 2 P. M., and beturns again at Sin the evening. This was affect on opportunity to go to Providence twice in the course of the day, and retern again. She also ownests with all the trains of care to and from U. ovidence. See advertisement.

AF Tomorrow being Yearly Mess ing Shaday, we presume that the towwill be telt of atrangers, as usual, on auch of carions.

On Thusday, 22d. Edwin P. Wadaple, of Baston, will deliver an oration, and Park Beajamin, Esq., of New York will pronounce a poem before the Liter. any Socience of Union College.

Thomas State King of Boster, was 1 announced to preach before the 31 Unitarian Society, in Brooklyn, N. Y. last Sunday, and as an inducement to rite dan da Gabbly t Be is f are collections  $^{9}$ -Rather a novel, Gough undoubtably quite a pleasing method of raising an audience.

BOSTON, June 12. It has been accertained that Ephrian G. Daggett, the author of the bloody tragedy at Roxbury, was naturally of a mild disposition, temperate habits and of a good moral character. He had for the past two years been subject to apoplectic fits and at times labored under mental derangement, but never until this event exhibited signs of violence.-He was never confined in the lumatic asylum, nor supposed to be in any way dangerour. He left home without the knowledge of his friends, and the first intelligence of his whereabouts was uccompanied with the account of the lamentable affair of Saturday last. His hody has been ranagnised and measures taken to remove it to Maine.

The Lowell City Government has appropriated \$1,500 for the celebration of the 4th of July.

From the Richmand times of Wednesday. DEATH OF MR. TERRY.-Intelligence was received yesterday by the packet beat from Lynchburg, that Mr. Terry, the editor of the Virginian, died about seven o'clock Sunday evening, of the wound received in his combat with Mr. Saunders. We learn that during the whole period that he lived after he was wounded, he evinced a calmness, fortitude and even cheerfulness, truly remarkable.

Mr. Terry, was we believe, the grandson, and bore the name of Rev. Abner W. Clopton, one of the most eminent ministers of the Baptist denomination in Virginia. He was graduated at Princeton college. In the Fall of 1847 he became the editor of the Danville Register, and some time during the last year took charge of the Lynchburge Virginian, one of the most firmly established Whig journals of the state.

THE LAW "NO RESPECTER OF PER-FOSE,"-A striking instance of the above proverb, the correctness of which many persons have frequently questioned, recently occurred in London. Capt. Paulet Henry Somerset, an aristocratic gentleman belonging to the aristocratic Cold Stream Guards, attempted to drive a two horse vehicle up the road leading to the great exhibition, which the Commissioners had closed to carriages. He was stopped by a police man, whom he herse-whipped with great fury, but was arrested and taken before Magistrate Hardwick. He stated "that he had not received that courtesy from the to expect." The magistrate gave him a proper admonition, and sentenced him to the House of Correction for ten days. The sentence appeared to overwhelm him, and he offered to pay any fine which might be inflicted, as he would he obliged to quit his regiment; but the ungistrate was inexorable, and declined to make any alteration .- [Bosten Cou-

NAVAL.-The U. S. frigate Saranac, bearing the broad pennant of Com. Parher, and the U. S. sloop of war Decatur, sailed from Key West for Havana, on the 1st inst. The Albany remained there at that date. The U.S. revenue entter Crawford, Capt. Coste, arrived there on the 30th of May, on a cruise to visit the light-houses on the coast.

TRACTO AFFAIR .- The Philadelphia Ledger gives an account of a tragic affair which recently transpired at Morristown, Pa. A man named Cowperthwaite about a year ago made some threats against a Mr. Van Schiver, who thereupon caused a warrant to be issued for his arrest, when Cowperthwaite fled. On Tuesday last he returned to the neighborhood, and, armed with a shot gun, concealed himself in a field near the house, from which he shot at Mr. Van Schiver, wounding him slightly .-A party of citizens, headed by a constable, hastened to arrest the ruffian, who, finding himself closely pursued turned and fired, wounding the constable. The pursuers returned the fire, and Cowperthwaite was so spriously injured, that he was immediately cap tured and conveyed to jail at Mount Holy.

On the vast praries of Texas, a little plant grows, whose leaves point unerringly to the North-a guide for travelers across those trackless wilds.

117 Mr. Francis Griffin, of New York in consequence of land speculations, and endorsing Mr. Samuel B. Ruggles's notes, has been obliged to suspend payment. His habifities as endorser are a bout \$100,640.

(3-Some thirty thousand dellars in counterfeit money have been discovered in an old wall at Paterson, New Berney. The discovery was made by intercepting a letter of the famous Levi Cole. who is now in the Rhode Island State Prison, on a charge of forgery.

not be the true one, and we shall be very happy to make any correction in it that either party may desire. It is pas. sible, however, that the matter may remain a mystery, to be placed in the catalogue of great events about which there will ever be 'historic double.

03- At a funeral in North Haven Conn., Monday week, after the corpse had been carried out, and some of the mourners had left, the floor dropped through into the cellar, carrying some twelve or afteen persons with it. Several of them were seriously injured but none, it is believed fatally. The house was an old one, and it is supposed the timbers had become defective from what is called the "dry rot."

Exposing Humbugs .- Some of our contemporaries speak of the spiritual rapping humbug being exposed. What difference would that make? The more palpable a humbug is, the more it is cought after and swallowed.

The Rochester American says that there is a village on the eastern slope of the Hoosac Mountain, in a valley so narrow, that sewed shoes cannot be made there—as there is not room enough for the workmen to draw their arms out -and hardly for a lap-stone.

IENNY LIND AND BARNOM—The following is said by the Phil. Evening Bulletin, to be the most plausible report in reference to the repture between two ruch distinguished public characters as MPIle Lind and Mr. Barnum.

The story goes thus, on visiting the National Theatre yesterday. MPIle Lind and Ended terms, and occupying the nest product to sing in a building theretotore used as a circus; that she expressed her disease is from the remainder of her engagement if she would increase the sum of \$25, 600 (which was to be forfeited on disease) in the solving their contract at the hundredtle concert) to \$27,000—a very liberal offer, which MPIle Lind at once accepted. This is the story told to us. It may not be the true one, and we shall be CMOKED SALMON instructed and for asle

### SALT RHEUM, OF MANY YEARS STANDING.

The following evidence of the efficacy of Dr. 8 P. TOWNBEND'S EXRACT OF SARSAPARILLA in Unlancous Diseases, is well worthy the notice of Mose smitted with such Ming-would eruptions:
New York, August 6, 1650.

Dr. S. P. Townsexs-Door Sir: I am most happy to acknowledge that, after suffering for neerly nine years with the Salt Rheum in a very aggravated form, and being abandoned so incurable by several of our first physicians, I was finally persuaded to by your far-famed Sarasparilla. The effects were soon perceptible, and when I had used ion bottles, to my great surprise I found myself not only cured of that most disagreezhie and irritating disesse, but my general health was so much improved that it estonished my family and friends. Since then I have advised others to make use of your Medicine, and have noticed its wonderful effects curing in numerour diseases, not altogether caused by a bird state of the blood.

Yours most respectfully,

Mrs. JANE SHAW, 105 Third Avenue. F. S. You have my consent to publish the above; and it will give me great pleasure to state my case personally to any lady that is similarly afflicted.

# COUGHS AND COLDS.

Dr. S. P. Townsen i's Saresparilla contains just the qualities that are requisite in these cases. It acts so a mild alterative and expectorant, then changing the action of the system, and enabling it to throw of the complaint. The number of instances in which Couche and Colds have been cured by this preparation la immenso.

BROOKLYY, June 13, 1880. Dr. S. P Townsand-Dear Sir: I was taken rick about a year ago, which was thought by many would result in Consumption. That used "old Dr." Jacob Townsend's (as he is called) Sarsagarilla, which done me no good. I then tried yours, and am wort happy to say it has entirely cured me. I am a thick of Col. JAMES T. For nearly a year I have been afficied with Dyspapsis and Nervous Debility; I had become alment dissouraged, as my physician's prescriptions were every day the same: "You regults no medicine, but exercise in the open air, my good lady, or you will norm eet well." Feeling as I then did, this was and pre-celled. So I began, through the recommendation on Mrs. Carrier, in Johnson et a to take Dr. S. P. These not taken all of the third bottle, as I find a tra-spoonful tow to have more effect than two table-spoonfuls did at first. This, I have been told, is one of the green secrets of the success of your medicine; that instead of increasing, the dose is diminished. I am now sujoying better health than I have befter for a year. te I am well kown to many in your city as well as is I am was sown to many in your city is well as in Brooklyn, it might be to your laterest to publish this which you have my concent to do.

DR. HOOFLANDS

DR. HOOFLAND'S CELEBRATED GERMAN BITTERS, Prepared by

P. M. JACKSON, At the German Medicine Store, 120 Arch Street, Philadelphia,

Their power over the above discusses a rost excellent—if equalled—by any other preparation in the United States, as the cores attest, in many enses after skilful physicians but failed.

These Bitters are worthy the attention of invalids. Possessing great virtue in the cretification of diseases of the Liver and lesser glands, exerting the most scarching powers in weakness and affections of the digestire ergans, they are withal, safe, certain and plearut.

Chas, Robinson, Esq., Easton, Md., in a letter to Dr. Jackson, January 9, 1880, said...

My wife and myself have received more benefit from your medicine than any other we have ever taken for the Dyspepsia and Liver disease.

"The Tenth Legion," published at Woodstock Va., January 10, 1850, said... "A GREAT MEDICINE."

"A GREAT MEDICINE."

"We have uniformly of the various Patent Medicines of the public awy of the various Patent Medicines of the day, unless the various Patent Medicines of the day, unless the consider northy of their value. Among those we consider northy of their value. Among those we consider northy of the Garden Editar, invested by Dr. Heofand, and preparelly Dr. Jackson, in Phila delphia. One instance in particular, in which the superior virtues of this medicine has been tested, has fallen under our observation. During the last summer, a son of Mr. Abadam Crabill, of this county, was very seriously affilicted with Liver Complaint, and after trying in vain various remadics, he purchased aboute of the Bitters, and after using it, was so much televed of his distressing makely, that he procured another bottle, and is restored yentirel to the all.

From "The Weldon Herald," published at Weldon, N. C., January 25, 1950, which enid--- "Patent Medicines."

Weldon, N. C., January 25, 1890, which and "Patent Molicines," of his very seldont that we make any alusion to Patent Medicines, either approxing or other wise. Unfortunately for the country, and for kunest and conscientious inventors and venders of these medicines, the land is kecoming flooded with quark preparations, that are tande hance for profit, and are fit not even for the dogs. In his state of things it is hard to tell which are, and which are not worth having. If a person gets an indifferent medicine the first time to percharge, he is very apt to condemn the whole of them and have no more, and inventors must only blame those of their number, (who ignorantly conding platin molicines together for the purpose of making moneys) for the ill success which attends the effort of rithe deserving."

6 We believe Dr. C. M. Jackson's 'Hoofland's

German Bitters,' to be a most excellent medicine,
and one that should be highly popular in these days
of Temperance—for they are altogether Vegetable
in their composition, without one drop of Alcolutic Spirits in them. This medicine is innecest,
last strengthening in its effects, and richly deserving of an unbanned popularity, which, when it
becomes known, it will, no doubt, fully enjoy.'

Judge M. M. Noals said, in his "Weckly Messenger," January 6, 1850,

"Dr. Hoofland's German Bitters.—Here is a
preparation which the leading presessin the Union
appear to be manimous in recommending, and the
feraon is obvious. It is made other a preception
furnished by one of the most eclebrated physicirus
of modern times—the hate Dr. Christopher Wilhelm Hoofland, professor to the University of Jensi,
private physician to the king of Prussia, and one
of the greatest medical writers Germany has ever
produced. He was emphatically the enemy of
throwing, and therefore a medicine of which he was
the inventor and emberger may be confidently relief
on. He specially recommended it in Liver Complaint, Dypepsia, Heldilly, Vertiga, Achility
of the Stomach, Constitution, and all complaints
arising from a disordered condition of the stomach,
the liver and the intestines. Nine Philadelphia
papers express their conviction of its excellence,
and revered of the editors speak of its effects from
their own individual experience. Under these
circumstances, we feel waranted, not only in ealing the attention of our traders to the precent proprictor's Opt. C. M. Jackson'e) preparation, but
in recommending the article to all afflicted."

MORE EVIDENCE.

The "Phikadelphis Saunday Gazette," the lest family nawspaper published in the Buit of States.

The editor says of DR. HOOFLAND'S GERMAN BITTERS:

"It is seldom that we recommend what are termed Patent Medicines to the confidence and patronage of our realers; and, therefore, then we recommend Dr. Hoofland's German Ritters, we wish it to be distinctly understood that we are not speaking of the mestrone of the day, that are noised about for a brief period and then begenten after it has done its goldy more of mischief, but of a medicine long established, valuerably prized, and which has met the breaty approbation of the faculty itself."

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest retaining in its tavor, is, that there is more of it used in the prattice of the regular Hypicians of Phikadelphia, than all other nostrous combined, a fact that can easily be established, and fully proving that a scientific reconstrict in all mest with their units amproval

havor, is, that there is more in teach in the protection of regular Hydricians of Paikudejshia, than all other nostroms consisted, an fact that can easily be established, and fully proving that a scientific preparation will need with their quiet approval when presented even in this form.

That this nochicize will cure Liver Compilaint and Dyspepsia, no cuc can doubt after using it as directed. It arts specifically upon the stomach and liver; it is preferably to reslowed in all billions and instructed to fenale or infant with safety and thouse seems the effect is immediate. They can be all ministered to fenale or infant with safety and Houre Boor Latches; mineral and the same than the safety and thought the safety and thouse for the same than the safety and though the safety and though the safety and the safety and though the safety and the safety an
